

Mozarthaus Vienna

A centre showing the life and work of the musical genius

At the Mozarthaus Vienna visitors can explore the only Vienna apartment of Mozart's that has been preserved, where he composed more music than anywhere else! Around this flat, a comprehensive presentation of the times in which Mozart lived and of his most important works awaits Mozart fans, young and old, from all over the world. The exhibition is focused on the great composer's Vienna years, which represent the peak of his creative achievement.

In addition to the permanent exhibition, a special exhibition also takes place in Mozarthaus Vienna, which changes each year and is included in the price of admission.
